Quarterly fund commentary

Global equity markets fell in the fourth quarter to round off their worst year since the financial crisis. Markets were rattled by a myriad of concerns including the US Federal Reserve (Fed) raising interest rates too quickly, US economic growth being revised down for the third quarter, President Trump warning that he was prepared for a 'long' government shutdown if he did not receive the funding for a border wall with Mexico that he expected, as well as the UK's exit from the EU and the ongoing US-China trade talks. The fund is entirely driven by high conviction, unconstrained stock selection. We seek what we believe to be the best investment ideas from across the world, building an occasionally concentrated portfolio of stocks that we believe has the potential to deliver attractive returns over the long term.
