Quarterly fund commentary

Global small and mid-cap markets fell in the fourth quarter to round off their worst year since the financial crisis. Markets were rattled by a myriad of concerns including the US Federal Reserve (Fed) raising interest rates too quickly, US economic growth being revised down for the third quarter, President Trump warning that he was prepared for a 'long' government shutdown if he did not receive the funding for a border wall with Mexico that he expected, as well as the UK's exit from the EU and the ongoing US-China trade talks.

The performance period shown here starts on the last day of the first indicated month and ends on the last day of the last indicated month.
