

LA FRANÇAISE

La Française LUX – Inflection Point Carbon Impact Global - Class I USD - Capitalisation-LU1190462629

A share class of La Française LUX – Inflection Point Carbon Impact Global (the “Fund”),
a sub-fund of the UCITS La Française LUX (The “UCITS”)
The Fund is managed by La Française AM International,
part of La Française group of companies

OBJECTIVES AND INVESTMENT POLICY

The objective is to achieve a long term capital growth.

The Fund invests mainly in international equities from anywhere in the world, including emerging markets. Specifically, the Fund invests in equities and equity-related securities issued by large capitalisation companies in any sector that are “best-in-class”. Investments may include American and global depositary receipts (ADRs and GDRs).

The Fund may invest in, or be exposed to, the following investments up to the percentage of net assets indicated:

- equities (including exposure from derivatives): 90% to 105%
- investment grade bonds: 10%
- other UCITS/UCIs: 10%

The Fund may hold cash and cash equivalents on an ancillary basis. These may include monetary UCIs or UCIs whose investments' overall weighted maturity or rate reset frequency does not exceed 12 months.

The Fund's net exposure to non-EUR currencies may be up to 100% of net assets.

RISK AND REWARD PROFILE

Risk and Reward Profile: The SRRRI (Synthetic Risk and Reward Indicator) demonstrates where the Fund ranks in terms of its potential risk and return. The higher the Fund's position on this scale, the greater possible reward, but also the greater risk of losing money.

The risk category is 5 because investments in stocks, and particularly in emerging markets, tend to be subject to high price fluctuations

We bring your attention to the fact that:

- Historical data used in calculating the SRRRI may not be a reliable indication of the future risk profile of the Fund.
- The risk indicator shown above is not guaranteed and it may shift over time. The lowest category does not mean a risk free investment.

Risks materially relevant to the Fund which are not adequately captured in the indicator:

Key investor information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

The investment manager focuses on companies that provide solutions to address climate change challenges, particularly companies that are on target to achieve significant reductions in greenhouse gases or who focus on products or services for such reductions. In selecting securities, the investment manager uses a proprietary financial and extra-financial scoring model as well as ESG indicators.

The Fund may hedge and/or expose the portfolio via derivatives instruments such as futures, options, equity swaps, currency swaps, foreign exchange forwards, non-deliverable forwards, indices, warrants in order to adjust the exposure of the portfolio or during specific variations periods.

Recommendation: This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

You can buy and sell shares of the Fund daily.

All income generated by share Class I USD - Capitalisation of the Fund is reinvested and included in the value of its shares.

Derivative risk: the Fund uses derivatives. These are financial instruments whose values depend on the value of the underlying asset. Small price fluctuations in the underlying asset can result in large price changes in the derivative.

Exchange rate risk: the Fund may invest in securities denominated in currencies other than the euro. Eurozone country investors are exposed to risks posed by fluctuations in currency exchange rates.

Small Cap risk: The Fund may be exposed to small caps. The trading volume on these stocks is lower and therefore upward and downward market movements may be more pronounced

Model risk : The Fund's investment process relies on the development of a proprietary financial and extra-financial scoring model, using indicators to include ESG indicators, through a strategic partnership within the Group La Française.

The model may not always perform as expected. The performance of the Fund may therefore be inferior to that of its investment objective and returns on investments may be negative.

CHARGES

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

ONE-OFF CHARGES TAKEN BEFORE OR AFTER YOU INVEST
