This Product Highlights Sheet ("PHS") is an important document.

- It highlights the key terms and risks of this investment product and complements the prospectus of the Fund dated 30 January 2015 (the "<u>Prospectus</u>")¹.
- It is important to read the Prospectus before deciding whether to purchase units in the Fund. If you do not have a copy, please contact us to ask for one.
- You should not invest in the Fund if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the units in the Fund, you will need to make an application in the manner set out in the Prospectus. Units of the Fund can also be purchased or traded on the SGX-ST as set out in the Prospectus.

SGX counter Lyxor EastEur10US\$ (H1M) SGX-ST Listing Date 12 May 2009 name (SGX stock code) **Product Type** Exchange Traded **Designated Market** Société Générale Maker Fund Underlying Reference CECE EUR Net Total Management Lyxor International Asset Management (the Return index. However the Fund is subject to a maximum single counterparty risk exposure of 10% of its NAV per counterparty under the UCITS directive. o If the swap counterparty defaults on its obligations, the NAV of the Fund may be adversely affected by fluctuations in the Basket of Balance Sheet Assets (which may not comprise shares that make up the Benchmark Index) during the period where an alternative swap counterparty is being sought for the Fund. o There is also a possibility that the swap transactions may be terminated under certain circumstances. You are exposed to foreign exchange risk and currency risk o Currency risk related to the Fund and the Benchmark Index: You will be exposed to the fluctuation of the denomination currencies of the shares constituting the Benchmark Index which are namely the Polish Zloty, the Hungarian Forint, and the Czech Crown (each, an "Underlying Currency", and together the "Underlying Currencies") against EUR since the Benchmark Index is denominated in EUR. This means that the exchange rate fluctuations could have a negative effect on the returns of the Benchmark Index tracked by the Fund. 	
 o As a FCP in France registered as a UCITS IV scheme, the Fund is subject to the applicable laws and regulations in France and the relevant UCITS directives. o The Manager, Depository and Custodian and the current swap counterparty are established in France and governed by French laws. Any winding up of the investments of the Fund including the swap agreement(s) which are governed by 	 into by the Fund and risks relating to swap agreement(s) The Fund currently enters into swap agreement(s) with a swap counterparty. There is a risk that the swap counterparty may default on its obligations under the swap agreement(s) which may cause the Fund to incur significant losses. However the Fund is subject to a maximum single counterparty risk exposure of 10% of its NAV per counterparty under the UCITS directive. If the swap counterparty defaults on its obligations, the NAV of the Fund may be adversely affected by fluctuations in the Basket of Balance Sheet Assets (which may not comprise shares that make up the Benchmark Index) during the period where an alternative swap counterparty is being sought for the Fund. There is also a possibility that the swap transactions may be terminated under certain circumstances. You are exposed to foreign exchange risk and currency risk <i>Currency risk related to the Fund and the Benchmark Index</i>: You will be exposed to the fluctuation of the denomination currencies of the shares constituting the Benchmark Index which are namely the Polish Zloty, the Hungarian Forint, and the Czech Crown (each, an "Underlying Currency", and together the "Underlying Currencies") against EUR since the Benchmark Index is denominated in EUR. This means that the exchange rate fluctuations could have a negative effect on the returns of the Benchmark Index tracked by the Fund. You will also be exposed to the fluctuation of the Underlying Currencies against USD and the fluctuation of the Benchmark Index is denominated in EUR. This means that the exchange rate fluctuation of the Underlying Currencies against USD and the fluctuation of the Benchmark Index are denominated in EUR and the shares underlying the Benchmark Index are denominated in EUR and the shares underlying the Benchmark Index are denominated in EUR and the shares underlying the Benchmark Index are denominated in EUR and the shares underlying the Benchmark Index are deno
