

# KEY INFORMATION FOR THE INVESTOR

This document provides essential information to investors in this fund. It is not a promotional document. The information that it contains is provided to you in accordance with a legal obligation in order to allow you to understand what an investment in this fund involves and what risks are associated with it. It is recommended that you read it in order to make an informed decision to invest or not.

## LYXOR KUWAIT (FTSE COAST KUWAIT 40) UCITS ETF (the "Fund")

ISIN: FR0010614834 - Sub-fund of the MULTI UNITS FRANCE investment company (the "Company") domiciled in France.

Managed by Lyxor International Asset Management S.A.S. ("LIAM")

### Investment objectives and policies

The investment objective is to track both the upward and downward evolution of the FTSE COAST KUWAIT 40 Index (Bloomberg code: GPCST001), increased by dividends, if any paid by the stocks composing the index ("Benchmark Index"), representative of the Kuwaiti equity market.

The anticipated ex-post tracking error under normal market conditions is 0.50%.

The Fund aims to achieve its objective through indirect replication, namely by entering into one or more over-the counter swap agreements (financial futures).

The Fund may invest in a diversified portfolio of international equities, the performance of which will be swapped against that of the Benchmark Index via financial futures. An up-to-date breakdown of the Fund's securities portfolio is provided on the website [www.lyxoretf.com](http://www.lyxoretf.com).

The net asset value is also indicated on the Reuters and Bloomberg pages of the Fund and may also be stated on the websites of stock markets where the Fund is listed.

The share currency is United States Dollars (USD).

- **Financial instrument investments:** financial futures, international equities, UCITS Funds, other financial instruments.
- **Recommended investment period:** this Fund may not be appropriate for investors who plan to withdraw their investment within a timeframe of less than 5 years.
- **Classification:** International Equities.
- **Dividends policy:** the Fund's distributable funds shall be distributed to unit-holders and/or capitalised.
- **Net asset value:** daily providing the relevant stock markets are open and orders can be covered.
- **Redemptions:** investors may redeem their shares on the primary market each valuation day before 18.30 CET and sell their units on the secondary market at any time during trading hours on the exchanges where the Fund is listed.

### Risk and return profile

The risk and return category given above is based on the historical performance of the fund's component assets or its benchmark. As such, this risk estimation cannot be a reliable indicator of future risk, and it could change over time. The lowest category does not mean a risk-free investment. The Fund has been classified as category 5 given its exposure to the Benchmark Index. Category 5 means that there is a potential for moderate losses in capital under normal market conditions. The value of your investment can change in a wide band, both upwards and downwards, very quickly each day.

The significant risks for the UCITS not taken into account in the above-mentioned indicator and which could result in a decrease in the Fund's net asset value and which the Fund is authorised to include in this document (see the Risk Profile section of the prospectus for more information concerning the risks):

- **Counterparty:** the Fund is exposed to the risk of bankruptcy or any other type of default by any counterparty with which it has concluded an agreement or transaction. In accordance with UCITS regulations, this risk may not exceed 10% of the Fund's total assets, for a given counterparty.
- **Risk linked to the use of futures:** in order to achieve its investment objective, the fund uses OTC-traded futures to reach the performance of the Benchmark Index. These futures may be affected by various types of risks such as amendments to the law and/or regulations, including tax regulations.
- **Fund Liquidity Risk:** The Fund's liquidity and/or value may be affected if, when rebalancing its exposure it is unable to execute trades in line with the index.

## Costs

The fees you pay cover the Fund's management costs, including promotion and distribution costs. These fees are deducted from the potential performance of your investment.

For more information concerning costs, please refer to the Costs section of the Fund's prospectus, which is available at [www.lyxoretf.com](http://www.lyxoretf.com).

One-off fees deducted before or after investment	
<b>Entry fees only applicable on the primary market:</b>	at the most, the higher of (i) <b>€50,000</b> per subscription request and (ii) <b>5%</b> of the net asset value per share multiplied by the number of shares subscribed.
