ASSET MANAGEMENT BY LYXOR
SOCIETE GENERALE GROUP

Lyxor IBEX 35 Doble Inverso Diario UCITS ETF - Acc (the "Fund")

ISIN: FR0011036268 - Sub-fund of the MULTI UNITS FRANCE investment company (the "Company") domiciled in France.
Managed by Lyxor International Asset Management S.A.S. ("LIAM")

Investment objectives and policies

The Fund's objective is to be inversely exposed, with daily rebalancing, to the Spanish equity market by replicating, both upwards and downwards, the performance of the IIbex 35® Doble Inverso Total Return strategy index (gross dividends reinvested) (the "Benchmark"), denominated in euro (EUR), which represents a short selling strategy (with daily leverage of -2x), with daily rebalancing, against the Ibex 35® index (gross dividends reinvested) (the "Parent Index"), the main Spanish stock index, while minimising the tracking error between the Fund's performance and that of the Benchmark.
The anticipated level of tracking error under normal market conditions is indicated in the Fund's prospectus.
Over a period of one trading day, any increase in the level of the Parent Index will lead to a decrease in the net asset value of the Fund, and investors thus will not benefit from a rise in the Parent Index. Over a period longer than one trading day, however, due to the daily readjustment of the leverage made to the Benchmark, the Fund's performance will not be equal to the inverse of the performance of the Parent Index, and could even track its performance in the same direction (and not inversely).
Further information about Bolsa Madrid indices can be found on the Bolsa Madrid website (http://www.bolsamadrid.es/ing/aspx/Indices/Resumen.aspx).
The Fund aims to achieve its objective through indirect replication, namely by entering into one or more over-the counter swap agreements (financial futures).
The Fund may invest in a diversified portfolio of international equities, the performance of which will be swapped against that of the Benchmark Index via financial futures. An up-to-date breakdown of the Fund's securities portfolio is provided on the website www.lyxoretf.com.
The net asset value is also indicated on the Reuters and Bloomberg pages of the Fund and may also be stated on the websites of stock markets where the Fund is listed.

The share currency is the Euro (EUR).

Risk and return profile

The risk and return category given above is based on the historical performance of the Fund's component assets or the performance of its benchmark index or the simulated performance of a portfolio model. As such, this risk estimation cannot be a reliable indicator of future risk, and it could change over time. The lowest category does not mean a risk-free investment. The Fund has been classified as category 7 given its exposure to the Benchmark Index. Category 7 indicates that it is possible to suffer a very large or even complete capital loss, suddenly under normal market conditions, as the value of your investment could fluctuate very strongly and quickly both upward and downward each day.
The significant risks for the UCITS not taken into account in the above-mentioned indicator and which could result in a decrease in the Fund's net asset value and which the Fund is authorised to include in this document (see the Risk Profile section of the prospectus for more information concerning the risks):

- **Counterparty risk**: The Fund is exposed to insolvency risk or any other type of default of any counterparty with which it enters into an agreement or transaction, particularly in the case of OTC futures or temporary sales of securities. Such an event could result in a significant decrease in the Fund's net asset value. In accordance with the regulations applicable to the Fund, this risk may not exceed 10% of the Fund's total assets for a specific counterparty.
- **Risk associated with the use of derivative instruments:** The Fund may use financial contracts that entail various types of risks, including but not limited to leverage, high volatility, valuation, or liquidity risks.

Costs

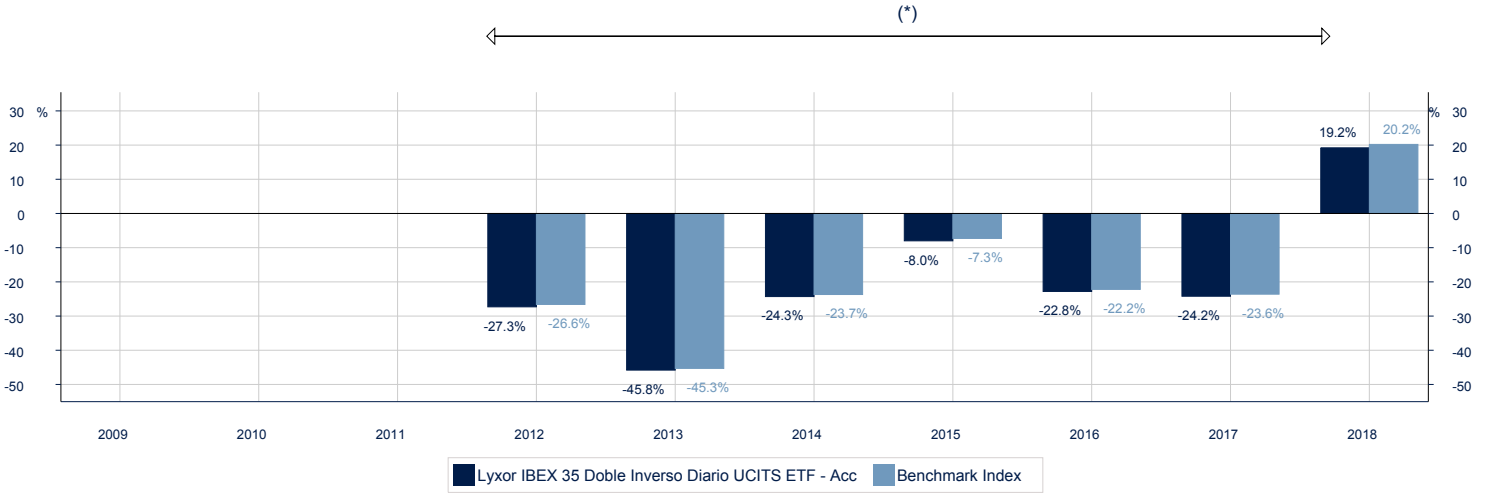

The fees you pay cover the Fund's management costs, including promotion and distribution costs. These fees are deducted from the potential performance of your investment. For more information concerning costs, please refer to the Costs section of the Fund's prospectus, which is available at **www.lyxoretf.com**.

One-off fees deducted before or after investment	
Entry fees only applicable on the primary market:	at the most, the higher of **(i) €50,000** per subscription request and **(ii) 5**% of the net asset value per share multiplied by the number of shares subscribed.
Exit fees only applicable on the primary market:	at the most, the higher of **(i) €50,000** per redemption request and **(ii) 5**% of the net asset value per share multiplied by the number of shares redeemed.
On the primary market, the percentage given is the maximum that could be drawn on your capital before it is invested or before the income on your investment is distributed to you. In some cases the investor might pay less. The investor can ask his or her financial adviser or distributor for the exact amount of the entry and exit charges. **When investing through a stock exchange where the Fund is listed, no entry/exit fees apply, but potential brokerage commissions may apply.**
