Resulting from its exposure to the Benchmark Index, the Fund has been classified within category 1. Category 1 indicates that a capital loss is possible but extremely unlikely under normal market conditions.

The significant risks for the UCITS not taken into account in the above-mentioned indicator and which could result in a decrease in the Fund's net asset value and which the Fund is authorised to include in this document (see the Risk Profile section of the prospectus for more information concerning the risks):
