ISIN: LU1571052130 - A sub-fund of the investment company named Lyxor Index Fund (the "Company") domiciled in Luxembourg.

Managed by Lyxor International Asset Management S.A.S. ("LIAM")

Objectives and investment policy

The investment objective of the Fund is to track both the upward and the downward evolution of the Bloomberg Barclays MSCI USD Corporate Liquid FRN 0-5 Year SRI Sustainable Index (the "**Benchmark Index**"), denominated in US Dollar (USD), and representative of the performance of the USD denominated investment grade corporate Floating Rate note market, while minimizing the volatility of the difference between the return of the Fund and the return of the Benchmark Index (the "**tracking error**").

The Fund is a passive fund.

The anticipated level of tracking error in normal market conditions is indicated in the prospectus of the Fund.

The Fund may also invest in a diversified portfolio of international debt securities, whose performance will be exchanged against the performance of the components of the Benchmark Index. Additional information on the Benchmark Index may be found on the Internet at www.bloomberg.com/professional/product/indices/bloomberg-barclays-indices.

The Benchmark Index is a total return index. A total return index calculates the performance of the index constituents on the basis that any coupons or distributions are included in the index returns.

The Fund seeks to achieve its objective via indirect replication by entering into an over-the-counter swap contract (financial derivative instrument, the "FDI"). The Fund may also invest in a diversified portfolio of international debt securities, whose performance will be exchanged against the performance of the benchmark Index via the FDI. Updated composition of the Fund holdings is available on www.lyxoretf.com.

In addition, the indicative net asset value is published on the Reuters and Bloomberg pages of the Fund, and might also be mentioned on the websites of the stock exchanges where the Fund is listed.
